

Secure Landing Zones for SMB

AWS Control Tower · Organizations · IAM Identity Center

Securing an AWS environment doesn't have to mean months of manual configuration or expensive licensing. With Tyflex and three zero-licence-cost AWS services you can be secured and live in days: enterprise-grade compliance guardrails, continuous audit-readiness, consolidated billing and volume pricing, and AI workload governance from day one. The foundation scales as you grow — no costly rebuilds.

WHAT TYFLEX DELIVERS

- A production-ready landing zone: automated guardrails, centralised identity, continuous compliance monitoring
- AI workload governance built in — a foundation that safely supports AI accounts from day one
- Consolidated billing across all accounts, unlocking organisation-wide savings plans
- No licensing fees — underlying AWS costs are pay-as-you-go

BY THE NUMBERS

~5 days

to production-ready
governance

up to 95%

faster than a manual
6-month buildout

up to 70%

less audit preparation
time
